

# BUBBLE BUSTER

## DEFOAMER

**FOR USE IN "STEAM-TYPE" (WATER-WASHING) CARPET CLEANING MACHINES  
CONTROLS FOAM SAFELY & EFFECTIVELY**

Improve efficiency in carpet extraction cleaning, floor stripping and other cleaning procedures with this easy-to-use defoamer. Recommended for use in the reservoir of all steam type (water-washing) carpet cleaning machines and wet-vacs. This silicone based defoamer is formulated to quickly and efficiently break down foam and prevent foam buildup. This process greatly decreases the time and labor needed to complete tasks. It is always easier to prevent foam from occurring than it is to reduce foam already created. When possible, treat prior to the foam occurring.

### FEATURES

- Liquid defoamer
- Made for extraction carpet machines
- Not greasy or oily
- Stable, water soluble solution
- Versatile
- Economical
- Fast, efficient, effective

### RELATED BENEFITS

- Breaks down suds that can clog lines
- Reduces suds in reservoir caused by high suds shampoo solutions
- Leaves no residues in tank
- No separation after mixing
- Many defoaming applications
- Highly concentrated | saves labor
- Tank empties faster (no sudsing)

### AREAS OF USE

Steam type carpet cleaning machines and wet-vacs:

- Restaurants, hotels, motels, offices
- Hospitals, nursing homes, doctor's offices
- Schools, universities, child care centers
- Malls, retail stores
- Industrial defoaming applications where silicones may be used

### TO USE

For most operations, 1 to 2 ounces added to a recovery tank eliminates foam completely. As a general rule, use only 2 to 4 ounces of defoamer for every 10 gallons of receiver tank capacity. **See label for complete directions and use only as directed.**

### SPECIFICATION DATA

Available Sizes - 4/1G  
Color - White Opaque  
Specific Gravity - 1.00

Physical State - Liquid  
Fragrance - None added  
pH (undiluted) - Undetermined
