

# SALVO

## NON AMMONIATED MOP AND VAC STRIPPER

Unlike conventional strippers, this product uses a concentrated solvent system that re-dissolves the floor finish, rather than breaking the polish loose from the floor. It is designed to be effective without the use of floor machines, to provide a complete strip on floor areas that standard floor stripping equipment cannot reach. It is a "mop on, pick up" stripper. Solvents and surfactants act quickly to dissolve and emulsify cured finishes while metal cross-links are being attacked and broken down. This product leaves virtually no residue, thus reducing time and labor required to rinse. Dissolved finishes stay liquefied and do not clog stripping pads.

### FEATURES

- Fast acting
- Non ammoniated
- Water-based
- Versatile

### RELATED BENEFITS

- Requires no agitation
- No harsh ammonia odor
- Safe for most floors
- Use on terrazzo and concrete

### AREAS OF USE

Resilient tile floor finishes found in

- Hospitals, nursing homes, doctor's offices
- Schools, universities, child care centers
- Malls, retail stores

### TO USE

Dilute from 1 :4 up to 1:1 for machine stripping. **See label for complete directions and use only as directed.**

### SPECIFICATION DATA

Available Sizes - 4/1G, 5G

Color - Blue

Ammoniated - No

Water-based - Yes

Flash point - Nonflammable

Specific Gravity - 1.04

Physical State - Liquid

Fragrance - Sassafras

Viscosity - Thin

Emulsifies - Heavy duty

DOT - Corrosive

pH - 13.3
