

PRO-TRACT

SEALER/FINISH

The latest floor care polymer technology is used in this combination sealer/polish to create a product that delivers wet-look gloss and outstanding durability. The unique polymer system provides ease of use and even application of polish onto resilient flooring or most non-resilient surfaces. This product is burnishable and is easy to remove with conventional stripper solutions.

This product is designed for use in heavy traffic areas, but will deliver unequalled results in any situation. The polish resists scuffs, abrasions, black heel marks and offers outstanding chemical resistance. It also provides very high slip resistance.

FEATURES

- Latest polymer technology
- Seals as it shines
- Designed for high traffic
- Unique polymer system
- High slip resistance
- Use with any speed buffer or burnisher
- Removes with finish dissolving strippers

RELATED BENEFITS

- Outstanding gloss and durability
- Reduce labor
- Unequaled gloss and scuff resistance
- Easy to apply, repair, and re-coat
- Reduces liability potential
- Excellent for any maintenance program
- Easy to remove

AREAS OF USE

May be used with propane maintenance routines in:

- Hospitals, nursing homes, doctors offices
- Schools, universities, child care centers
- Grocery stores, malls, retail stores

TO USE

Apply finish in a uniform, thin coat to stripped floor. Three to five coats are recommended for initial application. **See label for complete directions and use only as directed.**

SPECIFICATION DATA

Available Sizes - 4/1G, SG, SS

Color - White emulsion

Total Solids - 21%

Initial Gloss - Very High

Slip Resistance - Exceeds ASTM 2047

Specific Gravity - 1.029

Physical State - Liquid

Fragrance - Acrylic

Metal Interlocked - Yes

Traffic Area - High

Burnisher Response - Outstanding

pH - 9.0
