

POLARIS ULTRA

PREMIUM USH FINISH ULTRA HIGH SOLIDS FORMULA

This proprietary high solids metal interlocked UHS finish with new SPT (Synergistic Polymer Technology) which incorporates the best properties of several polymers in a synergy that is unsurpassed to create a uniquely formulated UHS finish. Polaris Ultra is designed to respond in a UHS maintenance program. This premium floor finish is formulated to provide outstanding gloss and durability. Designed to be applied in high traffic situations and appearance is important. The premier polymer formulation is built with incomparable gloss, durability, repairability, and slip resistance in mind. It is tough enough to resist wear between maintenance procedures and reduces overall maintenance costs.

FEATURES

- Sealer/Finish
- Synergistic Polymers
- High Solids
- Designed for high traffic floors
- User Friendly
- Premium Quality
- Extremely durable
- UHS Formulated

RELATED BENEFITS

- Single product with dual product characteristics
- Formulated for durability and “wet look” gloss
- Requires fewer coats, saving time and labor
- Excellent gloss and scuff resistance
- Easy to apply, repair and recoat
- Outstanding performance
- Extends recoat and strip-out cycles, reducing labor costs
- Compatible with UHS propane, battery, and electric equipment

AREAS OF USE

May be used with propane maintenance routines in:

- Supermarkets
- Retail stores
- Schools, universities
- Health care facilities

TO USE

Apply in uniform coats, using a mop or finish applicator. Allow each coat to dry prior to applying additional coats. **For applications, see label for complete directions and use only as directed.**

SPECIFICATION DATA

Available Sizes - 4/IG, 5G, 55G
Color - Milky White
Total Solids - 23%
Initial Gloss - Outstanding
Slip Resistance - Exceeds ASTM 2047
Burnisher Response - Excellent
Coverage - 2000–2500 sq. ft. per gallon

Physical State - Liquid
Fragrance - Acrylic
Metal Interlocked - Yes
Traffic Area - Very High
pH - 8.2
Specific Gravity - 1.028
