

TEN

FLOOR FINISH METAL INTERLOCKED

Designed to protect, preserve and enhance flooring this floor finish is ideal for almost any environment and budget. As a result of innovative technology this terpolymer finish is slip resistant, has no unpleasant odor; easy to apply and requires low maintenance. It forms a polyethylene fortified continuous film, with an internally plasticized low pH polymer. To keep the high gloss finish looking like glass, simply damp mop and buff as a part of regular maintenance.

FEATURES

- High gloss, wet-look finish
- Easy to apply, repair, and re-coat
- High slip resistance
- High quality value priced
- Use with any speed buffer or burnisher
- Removed by conventional strippers

RELATED BENEFITS

- Clean facility appearance
- Saves time and labor
- Reduces liability potential
- Fits your budget and performance needs
- Excellent for any maintenance program
- Easy to remove

AREAS OF USE

Use on resilient tile floors, concrete, terrazzo, etc.

- Restaurants, hotels, motels, offices
- Hospitals, nursing homes, doctor's offices
- Smaller schools, universities, child care centers
