

RED EYE JACK

INDUSTRIAL LOTION HAND CLEANER WITH GRIT

DESCRIPTION

Red Eye Jack is an industrial lotion hand cleaner with grit. Leaves hands soft even with repeated use.

FEATURES

Traditional industrial hand soaps leave dry chapped skin. Red Eye Jack helps prevent this with natural additives that moisturize as you clean. It is soft on hands and tough on grit. Removes stubborn industrial soils such as ink, resin, paints, adhesives, tar, carbon, and asphalt. Contains grit from an organic source. Does not contain plastic beads.

APPLICATIONS

Rub on hands. Rinse with water. Extreme grease may require multiple washes. Use hand brush or nail brush for hard to clean soil
