

A combination cleaning and polishing emulsion for modern, time saving spray buff floor maintenance. Removes dirt, black marks and stains and in the same easy operation deposits a tough, clear, high gloss, safe to walk on finish that resists scuffing, black marks and water spotting.

**DIRECTIONS FOR USE**

**Pour into an automatic or manual sprayer.** Spray a fine mist over a small area to be cleaned (about 5 feet at a time). Immediately buff sprayed area with a floor machine and nylon buffing pad until clean and dry. Change pads when they get clogged. When cleaning operation is completed, polish entire floor with brush or pad.

**NOTE:** Spray buffing gives best results on floors that have a polymer or acrylic floor finish. Very porous or abused floors should be sealed to keep marks on the surface for easy removal.

NOTE: KEEP FROM FREEZING

**PULIDOR EN SPRAY**

Una emulsión que combina limpieza y pulido para un mantenimiento de pisos moderno y que ahorra tiempo con el uso de un pulidor en spray. Remueve la suciedad, marcas y manchas negras y en la misma sencilla operación deposita un brillo fuerte, persistente y transparente, seguro para caminar y resistente al tránsito, marcas negras y manchas de agua.

**INDICACIONES DE USO**

**Vierta en un pulverizador automático o manual.** Rocíe una capa fina sobre un área pequeña a ser limpiada (como 5 pies a la vez). Inmediatamente pula el área rociada con una máquina de pisos y un paño de pulir de nylon hasta que el piso esté limpio y seco. Cambie los paños cuando se impregnen totalmente. Al completar la operación de limpieza, pula todo el piso usando un cepillo o paño.

**NOTA:** El pulido en spray brinda mejores resultados en pisos con un acabado de polímero o acrílico. Los pisos muy porosos o maltratados deben ser sellados para fácil remoción de las marcas en la superficie.

NOTA: NO DEJAR QUE SE CONGELE
